**Dear Sir & Madam,**

We take a great pleasure to invite you to participate in ICSSR sponsored two day national conference on "Water conservation for agriculture drought prone area" organized by Department of Geography, Lal Bahadur Shastri College of Arts, Science and Commerce, Satara on 3<sup>rd</sup> and 4<sup>th</sup> Feb, 2017. We look forward to welcome you at our college for this conference.

**About us:** Shikshamamruti Lal Bahadur Shastri Sanstha established Shri Swami Vivekananda Shiksha Sanstha in 1984 to take education to the doors of the poor and economically poor people. It works with motto "Spread of Education for the propagation of Knowledge, Achievement and Culture". Lal Bahadur Shastri Sanstha college, established in 1987, is one of the private college in Maharashtra and working hard to achieve excellence in quality education. The year 2016-17 is the Golden Jubilee Year of the college. To mark the college has 100 programme over 1400 departments. The college has achieved its reputation with its outstanding performance in the field of social work, sports, NSS & NCC, extra curricular. It is one of the college in Maharashtra with NAAC with B Grade (ICSSR 2015).

The college has a full range of Postgraduate Degree Open University. The college has rich research culture most of the faculties are Ph.D and M.Phil holders.

**Water Conservation:** For survival of the western Maharashtra (Satara, Sangli, Solapur, Nashik, Jalgaon, Dhule, Amravati, Beed etc.) is always known as a drought prone area. A lot of work of water conservation is going on through the government agencies and people's participation. However, there is a need of increasing awareness regarding the use of water and its conservation. Our college which is situated at rural part of Satara district understands the need of water. In this regard, the department of Geography has been initiated to organizing this conference. The college believes that this conference will bring together the various scholars from different states to discuss the best practices in the field of water conservation in drought prone areas.

**Field Themes:**  
**WATER CONSERVATION FOR AGRICULTURE DROUGHT PRONE AREA**

**Sub Themes:**

1. Principles and methods of water conservation for Agriculture Drought Prone Area.
2. Sustainable Water Conservation of agriculture.
3. Watered management.
4. Modern Techniques of water conservation.
