Bachelor of Arts program outcome

(Implemented from 2021-22)

- To develop strong critical thinking skills among the students enabling them to analyze information, evaluate arguments, and make well-reasoned decisions.
- To make students proficient in written and verbal communication, allowing them to convey complex ideas and concepts effectively to diverse audiences.
- Students can able to conduct independent research, gather relevant information, and synthesize knowledge from various sources.
- To develop the ability to understand cultural diversity, global perspectives, and societal issues and fostering a broader worldview among the students.
- Students should be adept at identifying problems, developing creative solutions, and adapting to changing circumstances.
- Students may emphasize the importance of ethical decision-making and social responsibility, encouraging graduates to contribute positively to their communities and society at large.
- Students can able to adapt to evolving situations, technologies, and career paths.
- To provide experience to students working in diverse teams, this helps them develop collaboration skills and the ability to work effectively with others.
- To promote a love of learning and the ability to engage in continuous self-improvement, encouraging graduates to stay informed and up-to-date in their chosen fields.
- To opt for professional studies in fields such as law, education, business, and more
